**TECHNOLOGY CAMP**

# Build Your Dream Connected World

Day 5 : Session 3

YELLOW CIRCLE

Learning Objective

- Apply what you have learned to develop a conceptual design and diagram of your dream connected world.
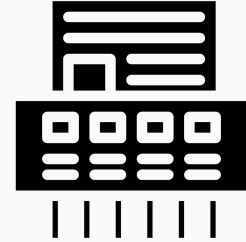

Server Components

Connected World Ideas:

- Connected Home
- Connected School
- Connected Government
- Connected Shop
- Connected Office
- Use your imagination!

Items to include in your conceptual design and diagram of your dream connected world:

- Description of your design.

- What Hardware is used?

- How are things connected and controlled?

- What security precautions have you included?

- Explain how it all works together.

- Prepare a presentation for the group.

Share your dream connected world:

- Describe your design.

- What Hardware is used?

- How are things connected and controlled?

- What security precautions have you included?

- Explain how it all works together.

Closing / Wrap-up
